H. R. Viets, Librarian, Boston Medical Library, Boston.—*United States of America.*

EDITORIAL NOTICE

Revised September 1951

CENTAURUS, *International Magazine of the History of Science and Medicine* is issued quarterly. It will bring original papers on the subjects mentioned in the title, as well as reviews and news of interest to the scientific and medical historian. Each issue will have approximately 96 pages. The annual subscription rate is 40 Danish crowns, 40s. (+ postage 4s.) or $ 6,00 (+ postage 50 c.).

No *payment* is made for contributions, but 50 reprints of each article will be sent to the author free of charge. Extra copies, if desired, will be supplied at a special rate.

The articles, reviews, notes and other communications will be printed in English, French or German, and only manuscripts written in one of these languages are accepted.

Manuscripts should be original typescripts (not carbon copies), in double spacing and on one side only of the paper. They must be carefully revised, as alterations in print are expensive. The paper used must be non-absorbent.

Author's name should be accompanied by the title, position and working place of the author.

Italics only are used for emphasis, especially for distinguishing titles of books and papers. It is marked in the manuscript by underscoring.

References should be placed at the end of the paper and should contain no reading matter.

E.g.: Thorndike, Lynn: *Some little known astronomical and mathematical manuscripts.* Osiris 1948 : 8 : 41-72.

Illustrations can be brought to some extent. Authors should indicate in the manuscript the approximate position of text figures.

Authors alone are responsible for the opinions expressed in their papers.

Manuscripts for publication may be sent to any member of the Editorial Board or directly to the General Editorial Office, *6, Nörregade, Copenhagen K, Denmark.*

Subscriptions and business communications should be sent directly to the publishers, *Ejnar Munksgaard, 6, Nörregade, Copenhagen K, Denmark.*

The *address* to which proofs are to be sent should be written on every paper. To avoid delay in publication authors resident overseas are requested, if possible, to name agents in Europe to look after matters concerning their papers, including the correction of proofs.

In reading proofs authors are expected to compare all references with the original, and to correct every quotation not from the manuscript, but from the original itself.

Publishers and others should be aware that it is obviously impossible to make extended *Reviews* of all material. An acknowledgement, however, of all new books and periodicals sent to the General Editorial Office will be made in the department of *Books received.*

All applications concerning *advertisements* in this journal should be addressed to the Advertisement Manager: *Cand. mag. Torkil Olsen, Sagasvej 6, Copenhagen V, Denmark.*
